

SRC Leadership for teachers

Peer Support Australia's SRC Leadership training program is conducted throughout the year at various central locations. The Workshop assists schools to develop an effective program which encourages meaningful and active participation of students across all areas of school life.

There is a recognised need for democratic processes in schools which involve and serve students as they grow and develop into responsible community members. Providing a strong leadership training program allows students to engage quickly and successfully with their leadership roles.

A whole school approach to democracy is a strong influence in creating a positive school culture. This approach actively involves students in their own education and welfare, develops leadership skills and empowers students to make positive contributions to their school community.

An effective SRC program engages students in learning how to contribute to, and influence, policy. It encourages youth advocacy and promotes civic participation among students, their parents and members of the community.

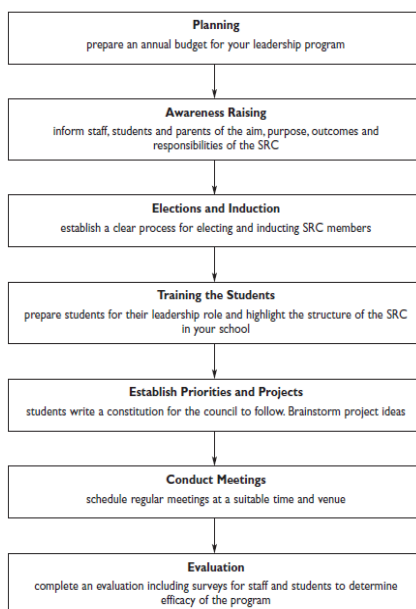

Peer Support Australia's SRC Leadership Training prepares students for their leadership role and highlights the structure of the SRC in schools. It assists students in developing the skills which are necessary for effective leadership while providing an opportunity to establish connections between members of the SRC.

Peer Support Australia's SRC Training Workshop for Teachers

The aim of this Workshop is to investigate leadership models and democracy with a view to establishing an effective SRC Leadership program in schools. It will enable teachers to identify whole school approaches and links to curriculum and students welfare.

Establishing an SRC

The following best practice model may assist you in establishing or maintaining an SRC in your school.

Includes:

- investigating democracy and democratic processes
- identifying what contributes to a positive school culture
- identifying a whole school approach with links to curriculum and welfare
- identifying structures for leadership opportunities
- analysing existing models of leadership
- an implementation model
- increase confidence in organising and sustaining a leadership program
- networking and action planning
- student project ideas
- student training notes and activities.
